

Shoppes of Jupiter Creek

Shopping + Professional Center
Jupiter, FL

SERVICES—Commercial Painting, Stucco

In the heart of Jupiter's business district, the Shoppes of Jupiter Creek is a commercial complex that with restaurants, shoppes, professional offices and a fitness center.

The Beachfront team recently completed an overhaul of four buildings at the Shoppes of Jupiter Creek. Exteriors were given a fresh, modern palette from the Sherwin Williams Loxon line of exterior paints. Designed for harsh climates, Loxon is mildew and UV resistant. Its self-cleaning formula sheds dirt easily with rain or other water contact.

“At the Shoppes of Jupiter Creek, we used a Sherwin Williams acrylic coating that is specially engineered to resist dirt. Its self-cleaning formula ensures the property will continue to look great for many years with minimal maintenance.”

Michael Normandale
Business Development Manager
Beachfront Painting and Waterproofing

In addition to painting, Beachfront professionals applied a stucco finish over each of the buildings' dated, brick columns. This simple improvement completely modernized the buildings' exteriors.
